Maj Thomas D. Neff holds a B.S. in Radio/Television, minor in Electrical Engineering, from the University of Idaho, and a Master of Computer Science from Texas A&M University. He graduated in 1984 from Officer Training School to become a meteorologist. He worked as the Worldwide Military Command and Control System (WWMCCS) Officer for the 30th Weather Squadron in Korea.

He worked at Offult AFB (Omaha), NE at the world's largest computerized weather central, Air Force Global Weather Central. Over the years he worked several jobs, culminating as the chief of their Software Engineering Process Group.

In 1996 he joined the United States Strategic Command (USSTRATCOM) as chief of the Metrics and Audits Section. He graduated from the Advanced Computer Officer Training course and completed all training for the Software Engineer career field.

Maj. Neff is President of the OMAHA Software Process Improvement Network and is a faculty member of the University of Nebraska, Omaha.
