Joyce Jakaitis

Ms. Jakaitis is a senior scientist at American Systems Corporation, with over 20 years of technical experience in DoD software systems development and maintenance in the areas of software testing, validation and verification, quality assurance, standards and requirements. She has provided software engineering technical services to the Army's Operational Test and Evaluation Command for the past 10 years, most recently in support of the Army Software Metrics Office. She was a major contributor to the Army's current software test and evaluation guide, DA Pamphlet 73-7, *Software Test and Evaluation Guidelines*, July 1997. Ms. Jakaitis holds a bachelor's degree in computer science from SUNY, Potsdam, a master's degree in computer science from Virginia Tech and is a member of the IEEE Computer Society.
