

## **Workshop Description: Journey Towards Joy (in Measurement of Iterative Development)**

Prerequisites (materials attendees should review ahead of time):

- Fundamental knowledge of agile methods and base metrics
- Familiarity of your company's existing metrics
- Insights on your program management needs

Materials to bring (from their organization or project):

- Current measures and metrics in use
- Problems/gaps of current measures
- Metric needs

Discussion (what will be accomplished):

- Critical assessment of current measurements
- Idealized metric needs

Goals and products (what will be produced as a result of the workshop):

- Strategic plan for reaching joyous metrics per each participants' needs

---

### *Critical assessment of current measurements*

---

- Does it support the defined goals?
- Does it Drive a Decision or Action?
- Is it aligned with an organizational goal/objective?
- Does it Answer a Question aligned with your goal?
- Does the Value Added Must Justify Time Spent?
- Is it Reviewed with a Defined Tempo and Venue?

---

### *Idealized metric needs & Strategic plan*

---

- Define top 3 issues for current measures from Critical Assessment Step, if any
- Define gaps in measures (what's missing in your current measurement set)
  - Based on your organization goals/needs
  - Down select to top 3 needs

<b>Aspiration</b>	<b>Need Date</b>	<b>Producer</b>	<b>Consumer</b>
Issue 1:			
Issue 2:			
Issue 3:			
Need 1:			
Need 2:			
Need 3:			

- Select 3 aspirations to create a detailed plan

Aspiration:	Need Date:
